

BE ONE WITH
THE FACADE.
BE ONE WITH
NATURE.

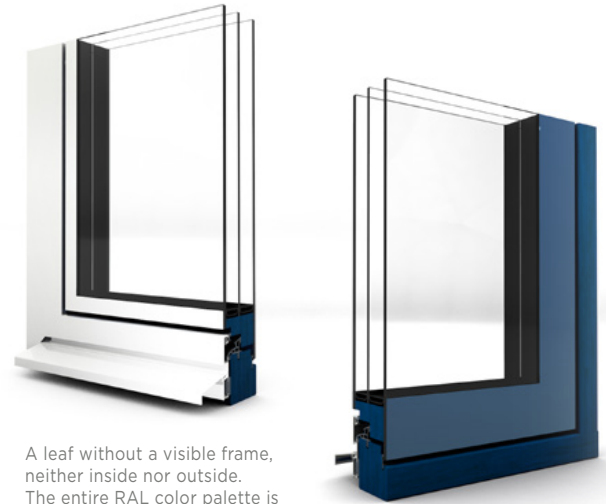

CLARA DUO: FLUSH ON THE INSIDE AND OUTSIDE

Clara Duo combines modernity with tradition. Flush on both sides, the slender window with its frameless sash blends harmoniously with the walls and the exterior facade. The timeless look also makes Clara Duo an ideal solution for renovations.

Continuous glass surfaces allow the boundaries between the interior and exterior to merge. Functional components such as the closing mechanism, the seals are hidden behind narrow strips of enamel.

A leaf without a visible frame, neither inside nor outside. The entire RAL color palette is available for enamel borders.

THE FULL RANGE CLARA FENSTER

Clara Fenster is the world's first frameless window with a casement made entirely of glass. It fills rooms with light and offers almost unlimited design freedom.

The possible combinations are endless:

- **Clara Uno:** an interior in masonry, design, contemporary, and an exterior in aluminum, wood, brick ... A classic or minimalist integration, modern and filigree for maximum light gain.
- **Clara Duo:** perfect integration to achieve the desired flatness inside the building or outside on the facade. Perfectly harmonizes with traditional architecture.
- **Clara lift-and-slide doors:** a sliding leaf with a flat surface, an effortless handling. An easily opening and closing thanks to the comfortable SOFT CLOSE function.
